The previous supplement (Twenty-fourth Supplement) was published on 25 September 2014

Cover: Dahlia flower types (left to right): Decorative, Cactus, Collerette, Single

Trade designations

A name such as *Dahlia F. I.* is a trade designation. In this example it is for the plant with the cultivar epithet 'Ausone'. In the Dahlia Register, trade designations are distinguished by being printed in small capitals, without quotation marks. (See International Code of Nomenclature for Cultivated Plants (2009), Article 13 and Appendix X.)

Group classification and formation

Formed through consultation with the national societies, or overseeing bodies, for dahlias, of the Netherlands, the UK and the USA.

Group 1 – Single-flowered dahlias

Single dahlias have blooms with a single outer ring of florets, which may overlap, the centre forming a disc.

Group 2 – Anemone-flowered dahlias

Anemone-flowered dahlias have blooms with one or more outer rings of generally flattened ray florets surrounding a dense group of tubular florets, which are longer than the disc florets in Single dahlias, and showing no disc.

Group 3 – Collerette dahlias

Collerette dahlias have blooms with a single outer ring of generally flat ray florets, which may overlap, with a ring of small florets (the Collar), the centre forming a disc.

Group 4 – Waterlily dahlias

Waterlily dahlias have fully double blooms characterised by broad and generally sparse ray florets, which are straight or slightly involute along their length giving the flower a shallow appearance. The depth should be less than half the diameter of the bloom.

Group 5 – Decorative dahlias

Decorative dahlias have fully double blooms showing no disc. The ray florets are generally broad and flat and may be involute for no more than 75% of their length (longitudinal axis), or slightly twisted and usually bluntly pointed.

Group 6 – Ball dahlias

Ball dahlias have fully double blooms, ball shaped or slightly flattened. The ray florets are blunt or rounded at the tips, with margins spirally arranged and involute for at least 75% of the length of the florets.

Group 7 – Pompon dahlias

Pompon dahlias have fully double, spherical blooms of miniature size, with florets involute for the whole of their length (longitudinal axis)

Group 8 – Cactus dahlias

Cactus dahlias have fully double blooms, the ray florets are usually pointed, the majority narrow and revolute for more than 50% or more of their length (longitudinal axis) and either straight or incurving.

Group 9 – Semi cactus dahlias

Semi-cactus dahlias have fully double blooms; the ray florets are usually pointed and revolute for more than 25% of their length and less than 50% of their length (longitudinal axis), broad at base and either straight or incurving.

Group 10 – Miscellaneous dahlias

Miscellaneous dahlias are any dahlias which do not fall into one of the listed groups.

Additions to the Register & Checklist, December 2013 to November 2014

- 'A ong' 5
H: K.E. Stock (2012), N: A. Shingler (2013), REG: K.E. Stock (2014)
Sdlg no. Gants 6
Fls 152mm wide; outer orets pale red; inner orets of a deeper tone. Stem 1.0m
Etymology: Pet name for daughter of M. Shingler

Additions and amendments to Supplements 16, 17, 20, 24 and the Tentative Classified List and International Register of Dahlia Names 1969

AMENDMENTS TO 16TH SUPPLEMENT

'Brooklyn' – change N, I and Reg. to F. Henderikx

'Brunello' - change N, I and Reg. to F. Henderikx

'Fernanda' - change N, I and Reg. to F. Henderikx

'Highwood' - change N, I and Reg. to F. Henderikx

AMENDMENTS TO 17TH SUPPLEMENT

'Bishop of Leicester' – change Group from 10 to 14

'Navona' - change N, I and Reg. to F. Henderikx

'Passionale' - change N, I and Reg. to F. Henderikx

'Show 'n' Tell' - change Reg. to F. Henderikx

'Victoria Falls' - change N, I and Reg. to F. Henderikx

'Worton Blue Streak' - change Reg. to F. Henderikx

AMENDMENT TO 20TH SUPPLEMENT

'Funny Face US' - change Reg. to F. Henderikx

AMENDMENT TO 24TH SUPPLEMENT

'Sweet Surprise' – change Nomenclatural Standard to (WSY0125046)

'Wouter Champion' – change Seed parent to 'Nathalie's Champion' which was registered in 2004

New RHS Awards of Garden Merit

These Dahlia cultivars were recommended for the Award of Garden Merit (AGM) in 2014 following trial:

- H D P ('Hdpu165') Single (Supplement 23)
- 'Jodie Wilkinson' Ball (Feb. 2015, will appear in Supplement 26)
- 'Karma Fiesta' Decorative (this Supplement)
- 'Kilburn Rose' Waterlily (March 2015, will appear in Supplement 26)
- 'Otto's rill' Decorative (International Register of Dahlia Names)
- P W ('Vdtg43') (Dark Angel Series) Single (Supplement 20)
- 'Taxco' Decorative (not yet registered, as is unregistered at time of printing)
- 'Vassio Meggos' Decorative (this Supplement)
