

## Inspired by the Royal Bank of Canada Garden

### 2 1 Pa Pa

Create your own -  
'Bespoke & Innovative' theme of the Royal Bank of Canada Garden.

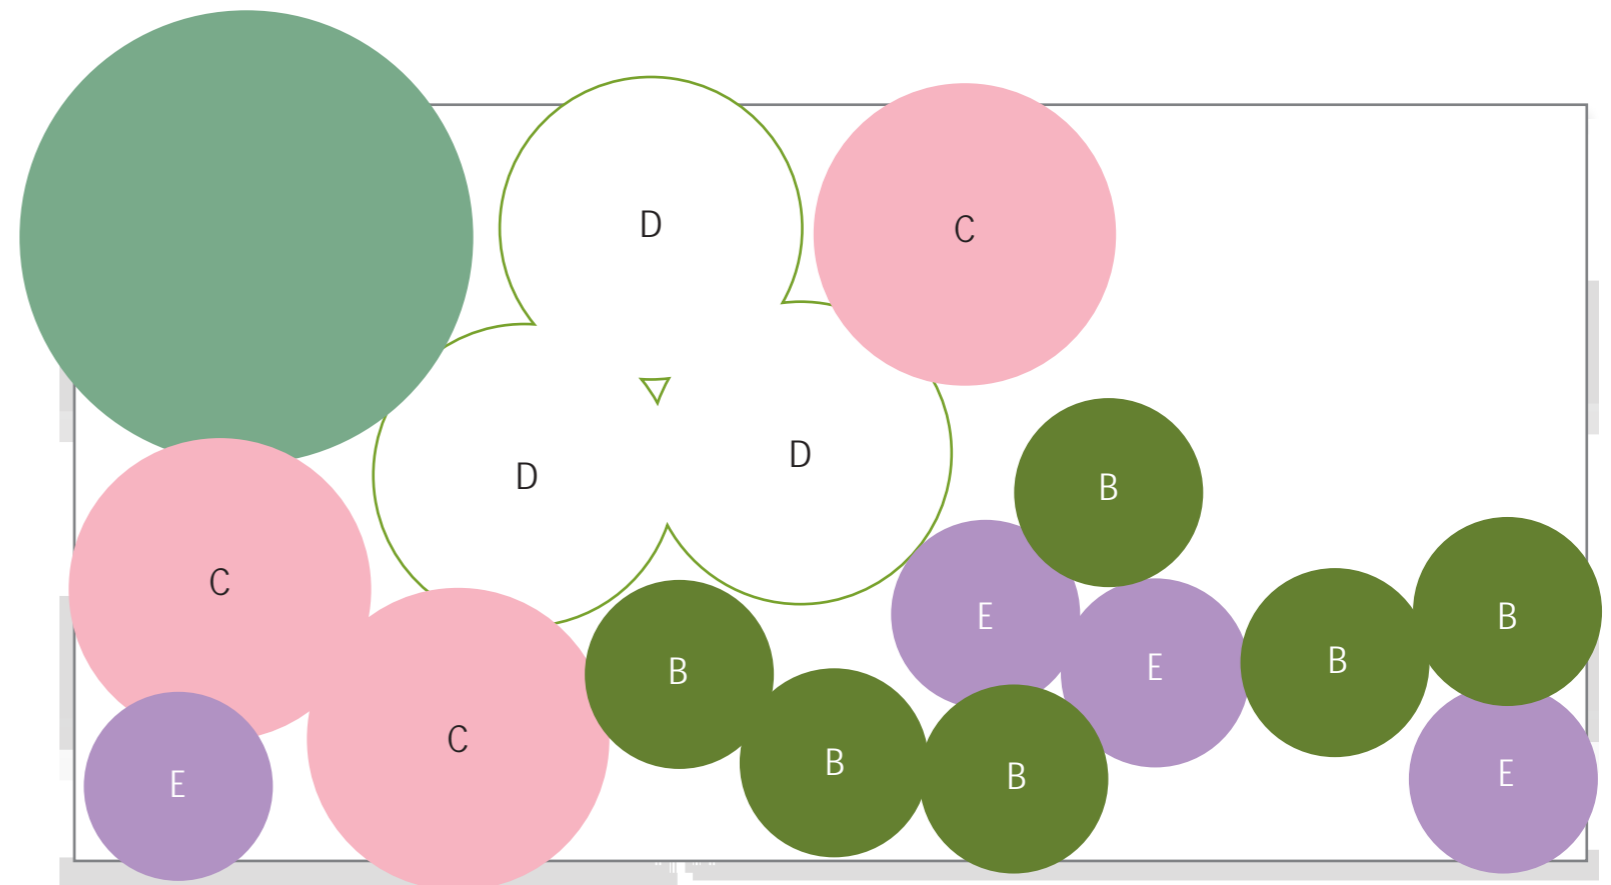

To celebrate the 150th anniversary of the Confederation of Canada and the 10th year of the RBC Blue Water Project™, the Royal Bank of Canada Garden is inspired by the vast and ecologically vital boreal forest and freshwater lakes of Canada. The garden seeks to create a space inspired by this landscape, rather than to recreate it - this is reflected in the planting with a mix of Canadian natives and similar planting from closer to home.
